### BUY A CASE OF TIPS

Once you're registered, you can start collecting for recycling!

- First, you must buy your racked or refill tips by the case, but don't worry – it's both cheaper and greener!
- Why do you need to do this? So you can reuse the outer case box to store and send back your recycling. Clever eh?

You can easily spot our case Article Nos. as they all end with -C

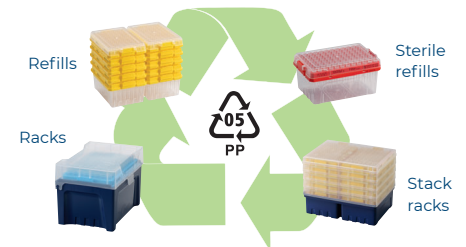

### WAVE GOODBYE

Prepare your recycling for collection:

- Seal the box and contents securely
- Affix the returns label
- Leave the box in the same area where parcels are usually collected by couriers
- Your recycling will be collected by UPS or DHL Express, and taken to our recycling partner for processing

### WHAT CAN I RECYCLE?

All TipOne® polypropylene (PP) packaging

Tips cannot be recycled. All recycling must be contamination free. TipOne® plastic only please!

When you have filled your TipOne® case with recycling, you can arrange collection
